1. MODEL BATTERY CHARGING & ASSEMBLY

Charge - Plug the charger into the power socket as illustrated in the diagram. Connect the charger with the battery pack as illustrated; at this time the indicator turn red (in charge).

Charging must be operated under the guidance of adults.

Step 1 : Remove the model lid.

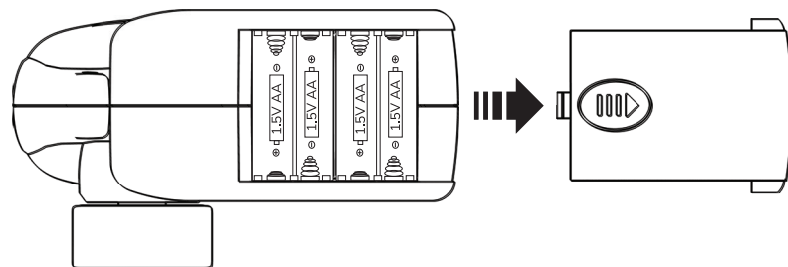

Step 2 : Insert the battery pack and plug it in. Close the compartment and ensure it is locked.

2. REMOTE CONTROL BATTERY INSTALLATION

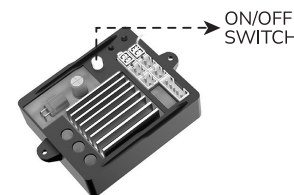

For the remote, you need to install 4 batteries of 1.5V "AA" type.

1. Carefully install new batteries (+/-) inside the compartment.
2. Securely place the battery compartment lid, and your remote control is ready to use.

3. PLAYING INSTRUCTIONS

1. Remove the cover and press the power switch to turn on the car, as illustrated in the diagram. A light indicator will illuminate, confirming the car is powered on.

Upto 100 Meter
Remote Control Range

2. Turn on the remote and turn on the car. Red-Green flashes indicate a state of pairing. The lights will stop blinking when the remote is connected.

Brake / Reverse

Forward

3. Steering Trim: Drive the car forward on a flat surface. Observe if the car drifts left or right. Turn the steering trim dial in small increments until the car drives straight without user input.

4. Throttle Limit: Turn the throttle limit down for beginners or when practicing in smaller spaces. Increase the throttle limit for more experienced use or when you want to unlock the car's full speed.

5. Steering Limit: Turn the dial to reduce the steering range for smoother turns at high speeds. Increase the steering range for sharper turns in tight areas.

6. Steering Direction: If the car turns the wrong way when steering, flip the switch. Test the steering to ensure the orientation matches your input.

7. Throttle Direction: If the car moves in reverse when you apply forward throttle, flip the switch. Test the throttle to ensure proper forward/reverse operation.
